## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Claim 14 has been renumbered as claim 13, and claim 15 has been renumbered as claim 14. The claims were inadvertently misnumbered by applicant.

### ***Allowable Subject Matter***

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: None of the cited prior art taken alone or in combination discloses or suggests a waveguide device comprising a core portion of functional metallocene cycloolefin copolymer (f-mCOC) and a cladding layer portion of metallocene cycloolefin copolymer (mCOC), wherein the core portion has an index of refraction greater than that of the cladding layer portion. Prior art does generally teach optical waveguides comprising cycloolefin copolymer, but fails to specifically disclose the cladding layers to be formed of metallocene cycloolefin copolymer, while the waveguide core is formed of a functional metallocene cycloolefin copolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. [USPAT 6214951] to Brekner et al, [USPUB 20030053770] to Noddings et al, and [USPUB 20030122480] to Wei et al, which disclose waveguides formed of cycloolefin copolymer. In addition, applicant's admitted prior art on pages 2 and 7 of the specification has been considered by the examiner.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James D. Stein whose telephone number is (571) 272-2132. The examiner can normally be reached on M-F (8:00am-4:30pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
